disclaimer, of the US '321 patent, and hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that the legal title to such patent so granted on the instant application shall be the same as the legal title to the US '321 patent, this agreement to run with such patent so granted on the instant application and to be binding upon the grantee, its successors, or assigns.

Your petitioner, SALOMON S.A., does not disclaim any terminal part of any patent granted on the instant application prior to the expiration date of the full statutory term of the US '321 patent in the event that the US '321 patent later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or further terminally disclaimed under 37 CFR §1.321(a), has all claims canceled by a reexamination certificate, is reissued, or is otherwise terminated prior to the expiration of its full statutory term, except for the failure of common ownership stated above.

Your petitioner, SALOMON S.A., certifies that the aforementioned assignment documents have been reviewed and that to the best of the assignee's knowledge and belief, title to the instant application and title to the US '321 patent are in the assignee. Further, the assignee's undersigned representative, who is empowered to act on behalf of the assignee, hereby declares that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001, Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
